Profile

Motivated Software Developer and Data Engineer with a legal background, specializing in Python, Google Cloud Platform (GCP), and MLOps. Passionate about data-driven solutions and automation, backed by extensive experience in legal research and contract management.

Core Competencies

Programming Languages: Python, JavaScript, SQL, Java

Cloud & Infrastructure: Google Cloud Platform (Compute Engine, BigQuery, Cloud Composer), Docker, Kubernetes

Data Engineering & MLOps: Apache Airflow, Kubeflow, ML Pipelines

Frameworks & Tools: TensorFlow, PyTorch, Django, Flask, Git, GitHub Actions, Jenkins

Databases: PostgreSQL, MySQL, MongoDB

Soft Skills: Analytical Thinking, Project Management, Cross-disciplinary Communication

Work Experience

Freelance Software Developer & Data Engineer

April 2023 – Present

- Developed and maintained ML pipelines using Kubeflow on GCP for data preprocessing and model training.
- Automated workflows with Apache Airflow and GitHub Actions, reducing manual tasks by 30%.
- Implemented a Discord bot (X-Discord-bot-v-1) for real-time moderation and data analysis.
- Integrated PDF-to-audio conversion and speech-to-text capabilities.

Co-founder & Attorney – Ledovskoy & Banduliak, Ukraine

May 2018 – May 2023

- Led the law firm and advised on civil, commercial, and administrative law matters.
- Drafted and negotiated complex contracts; ensured compliance and mitigated risks.

Selected Projects

- SSB_GmbH_practice (Python): Automated business process analysis platform.
- find_word_by_lvl_in_text (Python): Semantic text analysis for word classification.
- helper_to_learn_lang (Python/Django): Web app for language learning assistance.
- mlops-on-gcp (Jupyter Notebooks): Adapted and extended Kubeflow pipelines on GCP.

Education

Master of Laws (LL.M.) – National Academy of Internal Affairs, Ukraine 2011 – 2013

Certificates

- Google Cloud Digital Leader (2024)
- IBM Data Science Professional Certificate (2024)
- Meta Back-End Developer Professional Certificate (2024)
- Coursera: Data Engineering Foundations, GANs, Cloud Engineer Professional (2024)
- edX: CS50, Introduction to Computer Science with Python (2023)

Languages

- Ukrainian, Russian (native)
- English (advanced)
- German (A2)

Disability

- Degree of disability: 80% (severe)

Volunteer & Interests

- Volunteered at presidential elections (2014) and EURO 2012.
- Participation in open-source projects and tech meetups.
